

Your AI Virtual Assistant — Complete Guide

va.nexterai.agency | Prepared for Dr. Siamak Goudarzi | May 2026

What Is This?

This is your personal AI Executive Assistant — built specifically for you, running 24/7 at **va.nexterai.agency**.

It is connected to your Gmail, Outlook, Google Calendar, Go High Level CRM, Zoom, and Calendly. It does not just answer questions — it takes action: it reads your inbox, tracks your leads, prepares your meetings, delegates tasks to your team, and monitors your revenue. Every day, automatically.

What Runs Automatically Every Day (No Action Needed From You)

6:00 AM — Morning Briefing sent to your inbox

You wake up with a full intelligence brief already in your email. It includes:

- Today's meetings with attendees and times
- Unread emails from the last 20 hours that need your attention
- New hot leads added to the CRM in the last 48 hours
- Leads that haven't been contacted in 3+ days (overdue follow-ups)
- Your open tasks, ranked by priority
- Any content pieces that are overdue or have empty slots this week
- Team delegations that are overdue

Example of what you receive:

Good morning, Siamak — Monday 5 May 2026

Today: 3 meetings (4.5h) — Focus block auto-added 14:00–15:30 ✓

EMAILS TO ACTION

- Marco Rossi — "Partnership proposal follow-up" (2 days no reply)
- Parastoo Sadeghi — "Contract revision — urgent"

OPEN TASKS (HIGH PRIORITY)

- Review i-review.ai pricing deck before Friday
- Approve newsletter draft — scheduled for tomorrow

PRIORITY CONTACTS — reach today

- Ahmed Al-Farsi — hot lead, no contact in 4 days, €3,500 proposal open
- Lena Müller — sent proposal 6 days ago, no reply

CONTENT — this week

- LinkedIn post (scheduled Wed) — still in DRAFTING stage ⚠️

TEAM — overdue

- Anna: website case studies update — 2 days overdue

ONE THING: Call Ahmed today. The proposal has been open 7 days.

7:00 AM — Meeting Prep sent to your inbox

Before every meeting, a preparation note is emailed to you automatically, covering who the person is, your last interaction with them, and suggested talking points.

Example:

```
Meeting at 10:00 — Dr. Fatima Karimi (Karimi Legal Group)
Last contact: Discovery call 3 weeks ago — expressed interest in AI contract review
CRM status: Warm lead — no follow-up since initial call
Suggested: Ask about monthly contract volume. Present i-review.ai at Growth tier.
Open question: Did they compare with competitors?
```

8:00 AM — Inbox Triage

Both your Gmail (info@i-review.ai) and Outlook (siamak.goudarzi@nexterlaw.com) are scanned and categorized. Urgent items are flagged in the morning briefing.

9:00 AM — Follow-Up Monitor

Your CRM is checked for hot and warm leads with no contact in 3+ days. You get an alert if any are slipping.

10:00 AM — Relationship Health Check

Reviews key contacts across your network. Flags anyone in your relationship tiers who hasn't been touched recently.

8:00 PM — Meeting Summaries (after Zoom calls)

After any recorded Zoom call that day, a summary is generated automatically:

- What was discussed
- Action items extracted
- A note saved to the CRM contact record

Every Friday 5:00 PM — Weekly Review

A full week summary sent to your email:

- Meetings held and key outcomes
- Leads added and deals moved in the pipeline
- Revenue closed vs. monthly goal
- Content published vs. planned
- Team tasks completed vs. overdue
- One priority recommendation for next week

The Chat — How to Use It

Go to **va.nexterai.agency** and type in plain English. The assistant takes real action — it does not just give information.

Chat Skills (Type These Shortcuts)

/brief — Fresh Briefing On Demand

Get a live briefing at any time of day, not just 6am.

You type: /brief
You get: A full briefing generated right now – meetings, inbox, leads, tasks.

/meeting-prep [name] — Prepare for Any Call

You type: /meeting-prep Ahmed Al-Farsi
You get: Ahmed's CRM profile, last interaction, deal stage, 3 talking points.

/email-draft [what you want to say] — Write Emails Instantly

The assistant drafts it. You review and approve before anything is sent.

You type: /email-draft follow up with Parastoo, polite but firm, she needs to sign the contract
You get: A ready-to-send email in your tone. One click to approve and send.

/crm [query] — Your CRM, Instantly

You type: /crm show me all hot leads
You get: Every contact tagged "hot" with name, email, company, last contact date.

You type: /crm add note to Ahmed Al-Farsi: called today, sending proposal tomorrow
You get: Note saved to Ahmed's record in Go High Level immediately.

You type: /crm move Lena Müller to warm lead
You get: Her tag updated in the CRM.

/pipeline — Revenue Dashboard

You type: /pipeline
You get:

💰 Revenue Dashboard – May 2026

Monthly Goal:	€5,000
Closed This Month:	€2,400 (48%) – 3 deals
Gap to Goal:	€2,600
Open Pipeline:	€18,500 across 7 deals

Top Open Deals:

- Ahmed Al-Farsi – €3,500 [Proposal Sent]
- Karimi Legal Group – €8,000 [Negotiation]
- TechStart GmbH – €2,200 [Discovery]

⚠️ You need €2,600 more to hit goal. Focus on closing pipeline deals.

/content — Content Calendar

You type: /content list
You get: All content pieces with status and scheduled dates. Overdue items flagged ⚠️

You type: /content add LinkedIn post about AI in legal industry, scheduled May 7
You get: Added to pipeline as "idea" with scheduled date.

You type: /content update [ID] status: ready
You get: Status updated in the pipeline.

Status flow: idea → drafting → ready → scheduled → published

/delegate — Assign & Track Team Tasks

You type: /delegate ask Anna to update the website case studies by May 10
You get: Task logged: Anna | "Update website case studies" | Due: 2026-05-10

You type: /delegate list
You get:

- Anna: Update website case studies | Due: May 10 [assigned]
- Marco: Draft Q2 client report | Due: May 8 [OVERDUE ⚠️]

You type: /delegate mark [ID] done
You get: Task marked complete.

If a task becomes overdue, you receive an email alert automatically. The system tracks how many nudges have been sent per task.

Plain English — No Slash Command Needed

You can just type naturally for everything:

What you type	What happens
show me all hot leads	Lists every CRM contact tagged "hot"
what's on my calendar today?	Lists today's meetings with times
send a follow-up to Ahmed	Drafts the email and asks you to approve
create a Zoom for tomorrow 3pm with Fatima	Creates Zoom link + adds to Google Calendar
what did we discuss with Parastoo last month?	Pulls the meeting summary from the database
add task: review the contract draft	Saves it to your task list

what tasks are still open?	Lists all open tasks by priority
is my Friday free?	Checks calendar and confirms availability

All Connected Systems

System	What the Assistant Can Do
Gmail (info@i-review.ai)	Read inbox, draft emails, send on approval
Outlook (siamak@nexterlaw.com)	Read inbox, draft emails, send on approval
Google Calendar	View events, create meetings, auto-add focus blocks
Outlook Calendar	View events
Go High Level CRM	Search contacts, manage leads, add notes, update pipeline
Calendly	View upcoming bookings, get invitee details
Zoom	Create meetings, fetch recording summaries
Database (Supabase)	Tasks, meeting history, content pipeline, delegation records
